Valued Customer,

Working with the FDA, Jubilant HollisterStier Allergy recently made a change to Ragweed labeling. On future batches of Short Ragweed, you will find the vial labeled with 200 Amb a 1 units / mL. Giant/Short Ragweed Mix will be labeled with 100 Amb a 1 units / mL. These are the target values within the production process. This is only a label change and there is no change in the product itself. Please continue to adjust dosing as you would when moving from one lot of product to the next. Batch-specific Amb a 1 values are available by calling Customer Service at 1.800.495.7437.

Sincerely,

Ben VanGerpen
Chief Scientific Officer
